1. Incentives for equipment listed in this table are only available for small business customers, select very small business customers, named community small business customers meeting customer eligibility requirements posted on Pacific Power's website.
2. Incentives are capped at 90 percent of qualifying Energy Efficiency Measure Costs for customers meeting small business criteria. Energy Efficiency Measure Costs are subject to Pacific Power approval.
3. Incentives are capped at 100 percent of qualifying Energy Efficiency Measure Costs for customers meeting very small business or named communities business criteria. Energy Efficiency Measure Costs are subject to Pacific Power approval.
4. Qualifying equipment must be installed by an approved contractor/vendor.

#### Background:

It is Pacific Power's intent to adjust the incentives periodically to address market conditions (changes in material costs, product availability, and price competition), and align with Pacific Power's defined savings target, incentive budget and cost-effectiveness requirements. When a change is needed, Pacific Power will post a notice on its website announcing the coming changes. The notice will be posted at least 45 days prior to the changes taking effect.
